CUTS

POTATO HAULMS
RUSHES
BRUSHWOOD
GRASS VERGES
PASTURE LAND
GORSE · THORNS
KALE & SPROUTS
HEATHER

Sturdily constructed for a powerful job, the Super Swipe slashes through the densest growth. By means of three high speed revolving chains, it cuts and mulches all kinds of stalks. Its pulverising action destroys all forms of weed growth, scrub, brambles, bracken, nettles, thistles, heather, rushes, etc. Acres of land can be quickly cleared and reclaimed for cultivation—and the initial cost is extremely low.
