LAND-ROVER SERVICE NEWS LETTER  
No. 6

January, 1961

**Item 34 SUBJECT: CARBURETTER**

MODEL: Land-Rover 2½ litre Petrol.

REMARKS: This is to advise that our offer to replace carburetters for the above models which have suffered from persistent carburation flat spot, has been withdrawn with effect from October 31st, 1960 and that no further claims will now be considered. For further information see News Letter No. 102, Item 485, and Circular Letters dated March 5th and June 11th, 1959.

**Item 35 SUBJECT: GUARANTEE FORMS**

REMARKS: It is regretted that in spite of attention drawn to this subject in News Letter No. 116, Item 625, the failure on the part of certain Distributors to provide Guarantee Forms still continues.

Attention is drawn to the fact that requirement to provide these forms, which are of course obtainable from the Company, is a contractual obligation under the terms of the Agreement. Distributors should therefore please ensure the regular availability of forms of guarantee in connection with all cars sold by them, whether Trade or Retail.

Dealers are also reminded that in the event of a car being received without the necessary guarantee they are correspondingly under contractual obligation to provide this and must obtain it from their Distributor.

**Item 36 SUBJECT: TECHNICAL LITERATURE**

REMARKS: Full details of all Land-Rover technical literature which is now available from our Parts Department will be found below. Prices of these publications are also included; they are subject to a special discount of 20% unless otherwise stated.

**Owners' Instruction Manuals**
