Item 1 SUBJECT: **MAINTENANCE SCHEDULE CHECK LISTS AND PASSPORT TO SERVICE. U.K. MARKET ONLY (Policy item)**

MODELS: Land-Rover

INTRODUCTION  
DATE: United Kingdom, 1st June 1971

PART NUMBERS: Maintenance Schedule Check List 607437 Land-Rover  
Passport to Service, English, U.K. 607228 Land-Rover

The above publications will be available from the Parts Department, Cardiff, at a cost of 10p nett each as from the date of introduction.

REMARKS: With the introduction of Passport to Service as the basis for all maintenance attention, the Owner's Maintenance Schedule Book, with perforated tear-out sheets for use in conjunction with a job card, will no longer be supplied with the Owner's literature.

The new system also eliminates the need for Maintenance Schedule Continuation Books, in the case of vehicles in current production, as it is only necessary for the owner to purchase a new Passport to Service.

The Maintenance Schedule Books are being replaced by Maintenance Schedule Check Lists, which are in pads of one hundred sheets.

Each sheet is applicable to all variations of the model concerned, and covers the Free Service, 3000 mile (5000 km), 6000 mile (10,000 km) and 12,000 mile (20,000 km) Services.

The order of work on the Check Lists has been arranged so that the work is done in the most efficient manner. By following this sequence, the times for Maintenance attention as shown overleaf can be achieved.

The Maintenance section in all Owner's Manuals will be amended to fall in line with the altered schedules as and when the publications are reprinted.

The appropriate sheet in the Repair Times Schedule, Part No. 606310, will be amended at the next available reprint.
